

Guidelines for visiting safely

COVID-19: Visits at all Uniting AgeWell aged care residences in Tasmania

Update – Effective 15 July 2022

These guidelines take into account the national Industry Code for Visiting Residential Aged Care Homes during COVID-19, as well as Uniting AgeWell's rights, responsibilities and duty of care as an aged care provider.

Visitor screening criteria

You will not be permitted to enter the residential care facility if you:

- have symptoms of COVID-19
- have had a COVID-19 PCR test and are waiting for the result
- are required to isolate or quarantine
- have had contact with a COVID-19 positive person in the past 7 days
- have recorded a positive COVID-19 Rapid Antigen Test (RAT) prior to entry

Visiting guidelines and precautions

- Visiting hours are available each day without the need for pre-booking.
- While it is preferred that visitors arrange their visit between 10am and 4pm, we will continue to offer flexibility where needed.
- You must ensure you complete and sign the declaration form stating that you do not present a risk as per the entry criteria outlined above, and visitor log located at the front entrance.
- We ask that a RAT is done prior to entry to the facility and evidence of this is provided to staff on request.
- If you do not meet the entry criteria you will not be permitted to enter. This screening and declaration process will occur each time you visit.
- Facemasks (not cloth masks) must be worn at all times, including by children under 12 years of age where practicable. Masks must cover the nose and mouth and may only be removed to drink or eat.
- Sanitise your hands upon entry for screening, prior to entering the resident's room and again on exit.
- You must maintain a social distance of 1.5 metres at all times from the resident you are visiting, staff and other residents.
- Visits can occur in a resident's room, outdoors, or in the event of an activity, in a communal area and all people maintain social distancing of 1.5m.
- The entry and exit time of all visitors is to be recorded; visitors must complete the visitor log.

Please note that visitor access may change if an outbreak occurs within the facility or a declared outbreak has occurred within the local area or if there are other extraordinary circumstances that require it.

Uniting AgeWell's primary concern is always the health and wellbeing of all residents and staff and in maintaining a safe living and work environment for all.

Thank you for your understanding and cooperation.

Andrew Kinnersly
