Statement of changes in equity	10
Statement of cash flows	11
Notes to the financial statements	12
Directors' declaration	35
Independent auditor's report to the members of Uniting AgeWell Limited	36

General information

The financial statements cover Uniting AgeWell Limited (the 'Company') as a group consisting of the Company and the entities it controlled at the end of, or during, the year (collectively the 'Group'). The financial statements are presented in Australian dollars, which is Group's functional and presentation currency.

The Company was incorporated on 15 August 2018.

The Company is an approved provider under the Aged Care Act 1997.

The current period represents 1 July 2019 to 30 June 2020. The comparative period is 15 August 2018 (date of incorporation) to 30 June 2019.

On 1 July 2019, The Uniting Church in Australia Property Trust (Victoria) and The Uniting Church in Australia Property Trust (Tas.) transferred the operations, assets and liabilities of Uniting AgeWell Victoria and Uniting AgeWell Tasmania to the Company for \$nil consideration (refer to note 3 for further details).

The registered office and principal place of business of the Company is:

Uniting AgeWell Limited
Wesley Place
130 Lonsdale Street
Melbourne VIC 3000

Uniting AgeWell Limited
Directors' report
30 June 2020

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group') consisting of Uniting AgeWell Limited (referred to hereafter as the 'Company', 'Uniting AgeWell' or the 'parent entity') and the entities it controlled at the end of, or during, the period ended 30 June 2020.

Transfer of operations

On 1 July 2019, The Uniting Church in Australia Property Trust (Victoria) and The Uniting Church in Australia Property Trust (Tas.) transferred the operations, assets and liabilities of Uniting AgeWell Victoria and Uniting AgeWell Tasmania to the Company for \$nil consideration.

The information contained in this report covers the operations of Uniting AgeWell both prior and post the transfer on a like-for-like basis, where applicable.

Directors

The following were directors of the Company during the whole of the financial year, unless otherwise stated:

Ms Raelene Thompson
Ms Kate Andrews
Ms Jan Begg
Mr Simon Brewin
Ms Kathryn Campbell
Rev Colin Gurteen (appointed July 2019)
Prof Alison Hutchinson
Ms Julia Langdon
Mrs Jill Linklater (resigned October 2019)
Ms Sabine Phillips, AM
Mrs Wendy Quinn
Mr Ian Sanders

Principal activities

The principal activity of the Group during the financial year was the provision of senior services comprising residential care, home care, community services and retirement villages.

No significant change in the nature of these activities occurred during the year.

Entity's vision

Uniting AgeWell: The Church at Work

We are a creative leader; enabling communities to age well and individuals to live to their potential.

Entity's mission

Uniting AgeWell provides specialised services enabling older people to maximise their wellbeing and access care when required.

As part of the Uniting Church we live out the practical expression of Christian faith and values:

- Respect
- Partnership
- Wisdom
- Fairness
- Stewardship

The Uniting AgeWell 2017-20 Strategic Plan has five key priorities:

Uniting AgeWell Limited
Directors' report
30 June 2020

- The quality of life and experience of our customers is at the heart of everything we do.
- A progressive employer of choice, with a culture of customer-centred care, innovation, trust and respect.
- Proudly an expression of the Uniting Church.
- Stronger, smarter and more sustainable.
- Strength, learning and innovation through partnership and collaboration.

Uniting AgeWell believes that older people want to live in an environment of choice, empowerment and wellness, and to easily access support and care as they choose. While care remains an important part of our service delivery, our focus now includes what people can do instead of what they cannot. It promotes a life enhancing approach to growing older including supportive care when required.

AgeWell is Uniting AgeWell's approach to all service planning and delivery, quality and innovation activities, infrastructure development and workforce strengthening.

COVID-19

The COVID-19 pandemic has had a profound impact on the broader community, and the impacts on the aged care sector have been extreme. As at the time of writing this report, Uniting AgeWell has had no resident within its residential aged care facilities that has tested positive to COVID-19, and there has been no staff to staff transmission. A small number of residential aged care staff have contracted COVID-19 via community transmission, and this triggered outbreak management protocols at the four facilities at which these staff worked.

Uniting AgeWell has invested heavily in additional staff, infection control education, personal protective equipment, and technology to assist care services and corporate support services to continue throughout this difficult period. In addition, revenue was impacted due to reduced occupancy, closure of community centres and lower returns on invested funds. As an organisation we are very pleased with how well the challenges have been navigated to date.

The longer term impacts of COVID-19 are uncertain, particularly in relation to cost impacts of future outbreaks and the associated preventative practices. The costs currently incurred by Uniting AgeWell in relation to COVID-19, which have been partially funded by higher government funding, have had a significant impact on the financial result for the 2020 financial year. The COVID-19 pandemic continues to evolve and will impact operations over the next 12 months, however these impacts cannot be quantified at this time.

Quality and Safety

On 1 July 2019, new aged care quality standards were introduced. Uniting AgeWell's continued investment in quality and safety has ensured all services remain fully compliant with the new standards, and as mentioned above, has been invaluable as the sector has faced unprecedented challenges with the COVID-19 pandemic.

Growth

Uniting AgeWell has continued to grow services throughout 2019/20, with operating revenue increasing 12%, compared with the prior year.

Residential aged care revenue increased 6% and occupancy remains above industry averages at 94%.

Community services continue to grow with a 66% increase in operating revenue, due to additional home care packages and acquisition of Guardian Network Pty Ltd in October 2018. The number of Home Care Packages managed by Uniting AgeWell increased by 28% during the 2019/20 financial year.

Uniting AgeWell was appointed from July 2019 to deliver in-home support services on behalf of the Maribyrnong and Hobsons Bay City Councils, which will contribute to further community services growth during 2020/2021. Brimbank City Council have also chosen Uniting AgeWell as their preferred partner to transition aged care services from October 2020.

Uniting AgeWell has completed three significant capital projects during 2019/20. The largest of these projects was at Hawthorn (120 residential aged care beds and 49 independent living units). Our new 102-bed residential aged care facility became operational in November 2019, and a 30 bed extension at our Strathdevon residential aged care facility (Latrobe Tasmania) was opened by the Federal Minister for Aged Care and Senior Australians, Senator the Hon Richard Colbeck.

Several new projects are currently in the planning stage, with building works to commence over the coming 12 month period.

Uniting AgeWell Limited
Directors' report
30 June 2020

Royal Commission into Aged Care Quality and Safety

The Aged Care Royal Commission handed down an interim report in November 2019, by which many systemic weaknesses were identified. It has been clear for many years that the aged care system needs generational change, and with that, there needs to be a significant boost to the level of funding contributed to the system. A final report will be delivered in February 2021.

Financial performance

The operating surplus declined from \$3m to a deficit of \$12.1m due to low Government funding indexation relative to wage increases, increased investment in quality and safety, higher clinical staffing levels and enhancements in information technology.

A net cashflow surplus of \$21.8m was recognised after capital expenditure of \$40.2m, accommodation bond inflows of \$51.1m and operating cash inflow of \$9.4m. Uniting AgeWell's liquidity position is strong with cash and investments totalling \$199.2m.

Information on directors

Name: Ms Raelene Thompson
Title: Board Director and Chairperson
Qualifications: Master of Business Administration, Graduate Diploma of Management, Graduate Certificate of Business MAICD
Experience and expertise:

Name: Ms Kate Andrews
Title: Board Director
Qualifications: Bachelor of Commerce / Bachelor of Arts, Graduate Diploma of Marketing (Major: Marketing Strategy), Diploma of Financial Services (Superannuation), Graduate AICD Company Directors Course
Experience and expertise: AgeWell Community Advisory Committee Chairperson
Clinical Governance Committee member

Name: Ms Jan Begg
Title: Board Director
Qualifications: MBA, B.Sc. (Hons), Fellow AICD
Experience and expertise: Finance Committee member
Governance Committee member
Digital Governance Advisory Committee Chairperson

Name: Mr Simon Brewin
Title: Board Director
Qualifications: MBL, GradDip Health Service Management, BBus, Post Grad Cert Health Economics
Graduate AICD
Experience and expertise: Property & Development Committee Chairperson
Finance Committee member
Governance Committee Chairperson

Name: Ms Kathryn Campbell

Note 1. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

The following Accounting Standards and Interpretations are most relevant to the Group:

AASB 15 Revenue from Contracts with Customers

The Group has adopted AASB 15 from 1 July 2019. The standard provides a single comprehensive model for revenue recognition. The core principle of the standard is that an entity shall recognise revenue to depict the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard introduced a new contract-based revenue recognition model with a measurement approach that is based on an allocation of the transaction price. This is described further in the accounting policies below. Credit risk is presented separately as an expense rather than adjusted against revenue. Contracts with customers are presented in the Group's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the Group's performance and the resident's payment.

The Group was not party to any Contracts with Customers until 1 July 2019, therefore there is no impact on the comparative period and no opening balance impact as a result of the adoption of AASB 15.

AASB 16 Leases

The Group has adopted AASB 16 from 1 July 2019. The standard replaces AASB 117 'Leases' and for lessees eliminates the classifications of operating leases and finance leases. Except for short-term leases and leases of low-value assets, right-of-use assets and corresponding lease liabilities are recognised in the statement of financial position. Straight-line operating lease expense recognition is replaced with a depreciation charge for the right-of-use assets (included in operating costs) and an interest expense on the recognised lease liabilities (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However, EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results improve as the operating expense is now replaced by interest expense and depreciation in profit or loss. For classification within the statement of cash flows, the interest portion is disclosed in operating activities and the principal portion of the lease payments are separately disclosed in financing activities.

For lessor accounting, the standard does not substantially change how a lessor accounts for leases. However, resident agreements are considered a lease under AASB 16.

The Group was not party to any leases, as a lessee or a lessor until 1 July 2019, therefore there is no impact on the comparative period and no opening balance impact as a result of the adoption of AASB 16.

Note 1. Significant accounting policies (continued)

AASB 1058 Income of Not-for-Profit Entities

The Group has adopted AASB 1058 from 1 July 2019. The standard replaces AASB 1004 'Contributions' in respect to income recognition requirements for not-for-profit entities. The timing of income recognition under AASB 1058 is dependent upon whether the transaction gives rise to a liability or other performance obligation at the time of receipt. Income under the standard is recognised where: an asset is received in a transaction, such as by way of grant, bequest or donation; there has either been no consideration transferred, or the consideration paid is significantly less than the asset's fair value; and where the intention is to principally enable the entity to further its objectives. For transfers of financial assets to the entity which enable it to acquire or construct a recognisable non-financial asset, the entity must recognise a liability amounting to the excess of the fair value of the transfer received over any related amounts recognised. Related amounts recognised may relate to contributions by owners, AASB 15 revenue or contract liability recognised, lease liabilities in accordance with AASB 16, financial instruments in accordance with AASB 9, or provisions in accordance with AASB 137. The liability is brought to account as income over the period in which the entity satisfies its performance obligation. If the transaction does not enable the entity to acquire or construct a recognisable non-financial asset to be controlled by the entity, then any excess of the initial carrying amount of the recognised asset over the related amounts is recognised as income immediately.

The Group did not receive or recognise any income, financial assets or volunteer services prior to 1 July 2019, therefore there is no impact on the comparative period and no opening balance impact as a result of the adoption of AASB 1058.

Going concern

The financial report has been prepared on a going concern basis. This contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

As at 30 June 2020 the Group had a net working capital deficiency, being current assets less current liabilities, of \$136,141,133.

The net working capital deficiency is significantly impacted by resident ingoing liabilities totalling \$301,711,116, which are classified as current liabilities on the basis that they are repayable to residents when they leave the facility or unit, which can be at any time. The directors do not expect the resident ingoing liabilities to reduce significantly on an annual basis as the liabilities relating to residents who depart the facility or unit are generally replaced by resident ingoing liabilities received from new residents. The resident ingoing liabilities are therefore considered to form a part of the long term funding of the facility.

The directors have considered the position of the Group and, based on the above, consider the going concern basis to be appropriate for preparation of the financial report.

The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be incurred should the Group not continue as a going concern.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards - Reduced Disclosure Requirements and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Australian Charities and Not-for-profits Commission Act 2012, as appropriate for not-for-profit oriented entities.

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of the Company and the results of all subsidiaries for the period during the financial year that Company had control of the respective subsidiary.

Note 1. Significant accounting policies (continued)

Subsidiaries are all those entities over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power to direct the activities of the subsidiary. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are de-consolidated from the date that control ceases.

Intercompany transactions and balances between the Company and its subsidiaries are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Company.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the Company.

Where the Company loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Company recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Revenue recognition

Aged care and home care

The Group recognises revenue from aged care and home care services over time as performance obligations are satisfied, which is as the services are rendered, primarily on a daily or monthly basis. Revenue arises from discretionary and non-discretionary services, as agreed in a single contract with the resident. Fees received in advance of aged care and home care services performed are recognised as contract liabilities.

Retirement living

The Group recognises revenue from retirement living services over time as performance obligations are satisfied, which is as the services are rendered. Revenue arises from deferred management fees and short-term rentals, as agreed in a single contract with the resident. Revenue from deferred management fees is recognised over the expected length of stay of a resident. The expected length of stay of a resident is estimated based on historical tenure data, including industry data. The difference between revenue recognised and contractual deferred management fees earned is recognised as a contract liability. Revenue from short-term rentals is recognised on a daily basis as services are provided.

Note 1. Significant accounting policies (continued)

Nature of aged care, home care and retirement living revenue and cash flows

Type of revenue	Description
Government contributions - aged cared and home care	Government revenue reflects the Group's entitlement to revenue from the Australian Government based upon the specific care and accommodation needs of the individual residents. Government revenue comprises of basic subsidy amounts calculated in accordance with the Aged Care Funding Instrument ('ACFI'), accommodation supplements, funding for short-term 'respite' residents, HCP subsidies and other Government incomes. Revenue is recognised over time as services are provided and performance obligations fulfilled. Funding claims are submitted/updated daily and Government revenue is usually payable within approximately one month of services having been performed.
Resident and client fees - aged care	<p>Residents are charged a basic daily fee as a contribution to the provision of care and accommodation. The quantum of resident/client basic daily fees is regulated by the Government and typically increases in March and September each year. Resident/client basic daily fee revenue is recognised over time as services are provided and performance obligations fulfilled. Residents/clients are invoiced on a monthly basis and revenue is usually payable within 30 days.</p> <p>Other resident/client revenue represents other fees charged to residents/clients in respect of care and accommodation services provided by the Group and includes means tested care fees, Daily Accommodation Payment (DAP)/Daily Accommodation Contribution (DAC) revenue, additional services revenue and other income.</p> <p>Other resident/client revenue is recognised over time as services are provided and performance obligations fulfilled. Residents/clients are invoiced on a monthly basis and revenue is usually payable within 30 days.</p>
Deferred management fees ('DMF') - retirement living	DMF revenue represents a fee that is contractually deducted from the ingoing contribution that is paid back to a resident upon exit from an independent living unit. DMF revenue is recognised over the expected length of stay of a resident.
Other operating revenue - aged care, home care and retirement living	<p>Other operating revenue comprises rental income and other sundry revenue. Revenue is recognised over time as services are provided and performance obligations fulfilled. Residents/clients are typically invoiced on a monthly basis and revenue is usually payable within 30 days.</p> <p>For residential aged care accommodation arrangements where the resident has elected to pay a Refundable Accommodation Deposit ('RAD') or Accommodation Bonds (prior to July 2014), the Group receives a financing benefit, being non-cash consideration, in the form of an interest free loan. The fair value of this non-cash consideration is required, under AASB 16 and AASB 9 to be recognised as rental income (to reflect the resident's occupancy of the room) and corresponding interest expense (to record the financial liability associated with RADs and bonds at fair value) with no net impact on profit or loss. Where residents have elected to pay a DAP, the DAP is recognised as resident/client fees as disclosed above.</p> <p>This is calculated based on average RAD / accommodation bond balances, excluding any RADs/accommodation bonds awaiting refund/probate divided by the Maximum Permissible Interest Rate (MPIR), which is a Commonwealth Government set interest rate used to calculate the Daily Accommodation Payment (DAP) to applicable residents. This resulted in the Group recognising additional rental income and interest expense of \$11,461,520 for the 2020 financial year.</p>

Note 1. Significant accounting policies (continued)

Donations, bequests and fundraising revenue

Donations, bequests and fundraising revenue are recognised only when the Group gains control of the funds and when the funds do not give rise to a performance obligation which would require the need for a contract liability to be recognised.

Interest revenue

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when performance obligations are fulfilled or when it is received or when the right to receive payment if performance obligations do not exist.

The Group, as private sector not-for-profit entities, has elected not to recognise the financial impact of any volunteer services provided.

Income tax

The Company is a charitable institutions in terms of subsection 50-5 of the Income Tax Assessment Act 1997, as amended, and is exempt from paying income tax.

The subsidiary of the Company became a charitable institution from 26 September 2019, prior to that date it was not exempt from paying income tax.

The below outlines the accounting policies in relation to income tax for the subsidiary of the Company from 1 July 2019 to 26 September 2019.

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for when the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

Note 1. Significant accounting policies (continued)

A liability is classified as current when: it is either expected to be settled in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The Company has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Contract assets

Contract assets are recognised when the Group has transferred goods or services to the customer but where the Group is yet to establish an unconditional right to consideration. Contract assets are treated as financial assets for impairment purposes.

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

Financial assets at amortised cost

A financial asset is measured at amortised cost only if both of the following conditions are met: (i) it is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and (ii) the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the Group's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets mandatorily measured at fair value through other comprehensive income, the loss allowance is recognised in other comprehensive income with a corresponding expense through profit or loss. In all other cases, the loss allowance reduces the asset's carrying value with a corresponding expense through profit or loss.

Note 1. Significant accounting policies (continued)

Independent living units (investment property)

Investment property, principally comprised of independent living units on leased property, is held to generate deferred management fees and are not occupied by the Group. Investment properties are initially measured at cost and subsequently measured at fair value.

Independent living units' resident ingoings are recognised as a liability once received. The agreements with residents provide for Uniting AgeWell to retain retentions on a deferred basis, and the proportion of ingoings retainable is brought to account as income at the time that it becomes non-refundable to the resident. Some of the ingoings provide for Uniting AgeWell to owe a share of capital gain which is recognised as an expense progressively based upon the market value of the independent living unit as at reporting date.

Investment properties are derecognised when disposed of or when there is no future economic benefit expected.

Transfers to and from investment properties to property, plant and equipment are determined by a change in use of owner-occupation. The fair value on the date of change of use from investment properties to property, plant and equipment are used as deemed cost for the subsequent accounting. The existing carrying amount of property, plant and equipment is used for the subsequent accounting cost of investment properties on the date of change of use.

The Group obtains independent valuations for its investment properties annually. The best evidence of fair value is current prices in an active market for similar properties.

Judgements and estimates have been made in determining fair value of investment properties as disclosed in note 2.

Property, plant and equipment

Property, plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

A right-of-use asset is recognised for land, buildings and building improvements of residential aged care facilities, Community Services sites and other sites which are subject to a lease, at the commencement date of the respective lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred and paid for directly by the Group, and an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Group expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is recognised over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The Group has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Capital works in progress are carried at cost and represent assets which are not yet available for use and are yet to commence depreciation.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred.

Note 1. Significant accounting policies (continued)

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment over their expected useful lives as follows:

Right-of-use (land)	Unexpired lease period
Right-of-use (buildings and building improvements)	Shorter of unexpired lease period and 40 years
Plant and equipment	4 to 15 years
Furniture, fixtures and fittings	4 to 15 years
Motor vehicles	2.5 to 5 years
Computer equipment	2 to 4 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the Group. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

Intangible assets

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Goodwill

Goodwill arises on the acquisition of a business. Goodwill is not amortised. Instead, goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are taken to profit or loss and are not subsequently reversed.

Bed licences

Bed licences have been initially recognised at fair value upon issue from the Federal Government which is deemed to represent cost under AASB 138 Intangible Assets.

The Group considers the licences to have an indefinite life and as such does not amortise them. The licences are reviewed annually to assess whether there has been any impairment in their value. Where the carrying amount exceeds the value of the expected future benefits, the difference is charged to profit and loss. Impairment losses can be reversed in subsequent periods to the extent previously recognised.

The recoverable amount of bed licences represents the higher of the asset's fair value less costs to sell and its value in use. Judgements and estimates have been made in determining fair value and value in use of bed licences as disclosed in note 2.

Software

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and install the specific software. Following initial recognition, the intangible assets are carried at cost less any accumulated amortisation and any accumulate impairment losses.

Significant costs associated with software are deferred and amortised on a straight-line basis over the period of their expected benefit, being their finite life of 3 to 5 years.

Impairment of non-financial assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Note 1. Significant accounting policies (continued)

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Contract liabilities

Contract liabilities include the value of sufficiently specific performance obligations required under certain lease agreements which the Group is party to as a lessee. These contract liabilities are reduced and recognised as revenue over the lease period on a straight-line basis as the performance obligations are satisfied. The carrying amount is remeasured if there is a change in the lease arrangement consistent with that described in the below accounting policy for leases in which the Group is a lessee.

Contract liabilities also represent the Group's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the Group recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the Group has transferred the goods or services to the customer.

Leases in which the Group is a lessee

The Group leases various offices, residential aged care facilities and independent living units. Rental contracts can vary from 1 year to 99 years and can include extension options.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the fixed payments (including in-substance fixed payments), less any lease incentives receivable.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease.

If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group uses recent third-party financing as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Payments associated with short-term leases assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

Provisions

Provisions are recognised when the Group has a present (legal or constructive) obligation as a result of a past event, it is probable the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

Note 1. Significant accounting policies (continued)

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Superannuation expense

Contributions to superannuation plans are expensed in the period in which they are incurred.

Resident ingoings

The operation of residential facilities are governed by the Aged Care Act 1997. The operations of the independent living units are governed by the Victorian Retirement Villages Act 1986 and the Retirement Villages Act 2004.

Pursuant to the Aged Care Act residents may be required to lodge a refundable accommodation deposit (RAD's). The value of these RAD's are reported as a resident ingoing liability. The Aged Care Act allows a provider to retain the interest earned from these bonds/RAD's.

Resident ingoing amounts and related retentions and deferred management fees are received from residents of independent living units.

The current cash holdings of entry contributions and RAD's have been invested with the U Ethical Funds Management. Uniting AgeWell has established an investment structure to enable refunds of RAD's and other resident ingoing amounts to be met as required.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Note 1. Significant accounting policies (continued)

Other contributed equity

On 1 July 2019, The Uniting Church in Australia Property Trust (Victoria) and The Uniting Church in Australia Property Trust (Tas.) transferred the operations, assets and liabilities of Uniting AgeWell Victoria and Uniting AgeWell Tasmania to the Company for \$nil consideration.

The transfer does not meet the definition of a business combination under AASB 3 'Business Combinations', because ultimately there was no change in control over the net assets. Consequently, no acquisition accounting in the form of a purchase price allocation has been undertaken and therefore the assets and liabilities transferred have not been remeasured to fair value nor has any goodwill arisen on transfer.

Other contributed equity represents the value of net assets transferred on 1 July 2019 for \$nil consideration.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience and historical collection rates.

Fair value measurement hierarchy

The Group are required to classify all assets and liabilities, measured at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being: Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date; Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3: Unobservable inputs for the asset or liability. Considerable judgement is required to determine what is significant to fair value and therefore which category the asset or liability is placed in can be subjective.

The fair value of assets and liabilities classified as level 3 is determined by the use of valuation models. These include discounted cash flow analysis or the use of observable inputs that require significant adjustments based on unobservable inputs.

Estimation of useful lives of assets

The Group determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment, right of use assets and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Indefinite life intangible assets

The Group tests annually, or more frequently if events or changes in circumstances indicate impairment, whether goodwill and other indefinite life intangible assets have suffered any impairment, in accordance with the accounting policy stated in note 2. The recoverable amounts of cash-generating units have been determined based on fair value less costs to sell and value-in-use calculations. These calculations require the use of assumptions, including estimated discount rates based on the current cost of capital and growth rates of the estimated future cash flows and application of recent sales history for similar assets where an active market exists.

Note 2. Critical accounting judgements, estimates and assumptions (continued)

Impairment of non-financial assets other than goodwill and other indefinite life intangible assets

The Group assesses impairment of non-financial assets other than goodwill and other indefinite life intangible assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

Lease term

The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease commencement date. Factors considered may include the importance of the asset to the Group's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. The Group reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.

Incremental borrowing rate

Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the Group estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.

Employee benefits provision and other provisions

As discussed in note 1, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

As discussed in note 15, the liability for employee benefits and other provisions for additional leave benefits for certain current and former casual employees, stemming from the identification of casual employment arrangements which meet the majority of the facts of the employment arrangements considered in the *Workpac v Rossato* case, has been recognised by the Group at 30 June 2020. Such liabilities are estimated based on the Group's best estimate after considering all relevant facts and judgement has been applied when comparing the arrangements considered in the *Workpac v Rossato* case to the Group's casual employment arrangements. Timing or the amount of the outflow is uncertain and the Group will continue to assess its obligations to its casual employees in respect of this ruling and monitor the ongoing development of the appeal.

Uniting AgeWell Limited
Notes to the financial statements
30 June 2020

Note 3. Transfer of operations

On 1 July 2019, The Uniting Church in Australia Property Trust (Victoria) and The Uniting Church in Australia Property Trust (Tas.) transferred the operations, assets and liabilities of Uniting AgeWell Victoria and Uniting AgeWell Tasmania to the Company for \$nil consideration.

The transaction does not meet the definition of a business combination under AASB 3 'Business Combinations', because ultimately there is no change in control over the net assets. Consequently, no acquisition accounting in the form of a purchase price allocation has been undertaken and therefore the assets and liabilities have not been remeasured to fair value nor has any goodwill arisen on transfer.

Details of the transfer are as follows:

	\$
Cash and cash equivalents	1,218,351
Trade and other receivables	6,655,008
Other financial assets	197,769,317

Uniting AgeWell Limited
Notes to the financial statements
30 June 2020

Note 11. Investment properties (continued)

Valuation of investment properties

The basis of the valuation of investment properties is fair value. The investment properties were valued during the year on transfer from The Uniting Church in Australia Property Trust (Victoria) and The Uniting Church in Australia Property Trust (Tas.), by an independent expert valuer based on current prices in an active market for similar properties of the same location and condition, subject to similar leases and takes into consideration occupancy rates and returns on investment.

Note 12. Intangibles

	Consolidated	
	2020	2019
	\$	\$
<i>Non-current assets</i>		
Goodwill - at cost	4,558,663	-
Bed licences - at deemed cost	41,480,000	-
Software - at cost	2,958,345	-
Less: Accumulated amortisation	(1,317,288)	-
	<u>1,641,057</u>	<u>-</u>
Intangibles in progress - at cost	2,220,557	-
	<u>49,900,277</u>	<u>-</u>

Reconciliations

Reconciliations of the written down values at the beginning and end of the current financial period are set out below:

Consolidated	Goodwill \$	Bed licences \$	Software \$	Intangibles in progress \$	Total \$
Balance at 1 July 2019	-	-	-	-	-
Additions through transfer of operations (note 3)	4,558,663	41,480,000	3,200,845	1,490,641	50,730,149
Additions (net of transfers)	-	-	291,551	843,974	1,135,525
Write off of assets	-	-	(534,051)	(114,058)	(648,109)
Amortisation expense	-	-	(1,317,288)	-	(1,317,288)
Balance at 30 June 2020	<u>4,558,663</u>	<u>41,480,000</u>	<u>1,641,057</u>	<u>2,220,557</u>	<u>49,900,277</u>

Goodwill

Goodwill arose on the acquisition of the Company's subsidiary. On an annual basis the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the carrying amount to determine whether there is any impairment. No impairment loss has been recognised in the current year.

Uniting AgeWell Limited
Notes to the financial statements
30 June 2020

Note 13. Trade and other payables

	Consolidated	
	2020	2019
	\$	\$
<i>Current liabilities</i>		
Trade payables	4,314,335	-
Sundry payables and accrued expenses	13,218,259	-
	<u>17,532,594</u>	<u>-</u>

Trade payables, sundry payables and accrued expenses are non-interest bearing liabilities. Trade payable payments are processed once they have reached 30 days from the date of invoice for electronic funds transfer payments or cheque payment or 30 days from the end of the month of invoice for other payments. No interest is charged on trade payables.

All amounts are short term and the carrying values are considered to be a reasonable approximation of fair value.

Note 14. Contract liabilities

	Consolidated	
	2020	2019
	\$	\$
<i>Current liabilities</i>		
Contract liabilities as a lessee	1,864,115	-

<i>Non-current liabilities</i>		
Employee benefits	5,461,131	-
	<u>34,332,892</u>	<u>-</u>

Uniting AgeWell Limited
Notes to the financial statements
30 June 2020

Note 15. Provisions (continued)

Provisions for certain casual employee arrangements

The Group, as with many aged care providers, has many employees who work on a 'casual' basis to provide care and services to its residents. The Group has considered the impact arising from the Federal Court ruling in the Workpac v Rossato case, which identified that certain casual employees should receive annual, personal and compassionate leave, in addition to any remuneration previously received. This ruling has the potential to have widespread impacts across all industries that utilise casual workers.

The Group has assessed, based on a review of the casual employment arrangements entered into by the Group, and identified that certain casual employee arrangements meet the majority of the facts of the employment arrangements considered in Workpac v Rossato. The Group has therefore recognised a provision for any additional leave benefits at 30 June 2020. The portion of the provision relating to former employees has been recognised as an other provision, with the remaining value of the provision relating to current employees recognised within the employee benefits provision. The judgements and estimates applied by the Group when measuring the provision have been disclosed in note 2.

The Group will continue to assess its obligations to its casual employees in respect of this ruling and monitor the ongoing development of the appeal.

Note 16. Resident ingoings

	Consolidated	
	2020	2019
	\$	\$
<i>Current liabilities</i>		
Resident ingoings	301,711,116	-

Note 17. Lease liabilities

	Consolidated	
	2020	2019
	\$	\$
<i>Current liabilities</i>		
Lease liabilities - external parties	643,632	-
Lease liabilities - related parties	1	-
	<u>643,633</u>	<u>-</u>
<i>Non-current liabilities</i>		
Lease liabilities - external parties	1,065,619	-
Lease liabilities - related parties	97	-
	<u>1,065,716</u>	<u>-</u>
	<u><u>1,709,349</u></u>	<u><u>-</u></u>

Total cash outflow for leases during the period totalled \$879,897 (\$nil).

Note 18. Key management personnel disclosures

Compensation

The aggregate compensation made to the key management personnel of the Group is set out below:

	Consolidated	
	1 July 2019 to 30 June 2020 \$	15 August 2018 to 30 June 2019 \$
Total compensation	2,899,348	-

Note 19. Contingent liabilities

The underpayment of employee entitlements is a significant issue for Australian businesses. Over the last year, many employers have reported underpayments to Fair Work Australia. The Group, in the normal course of business, has commissioned an external review of employee entitlements to ensure compliance with Enterprise Bargaining Agreements and Industrial Awards. At this point in time, the amount of any obligation cannot be measured with sufficient reliability.

Note 20. Related party transactions

Subsidiaries

Interests in subsidiaries are set out in note 22.

Key management personnel

Disclosures relating to key management personnel are set out in note 18.

Transactions with related parties

The following transactions occurred with related parties:

	Consolidated	
	1 July 2019 to 30 June 2020 \$	15 August 2018 to 30 June 2019 \$
Revenue:		
Interest revenue from U Ethical Funds Management	5,988,398	-
Payment for other expenses:		
Other expenses with associates	500,000	-
Other expenses with entities of which Board Members are employees/Directors/associates	377,346	-

Receivable from and payable to related parties

The following balances are outstanding at the reporting date in relation to transactions with related parties:

	Consolidated	
	2020 \$	2019 \$
Current payables to Uniting Church in Australia	658,907	-
Lease liabilities to The Uniting Church in Australia Property Trust (Victoria) and the Uniting Church in Australia Property Trust (Tas.)	98	-

Uniting AgeWell Limited
Notes to the financial statements
30 June 2020

Note 20. Related party transactions (continued)

Financial assets receivable from related parties

The following balances are receivable at the reporting date in relation to financial assets held by related parties:

	Consolidated	
	2020	2019
	\$	\$
Current receivables:		
Deposits with U Ethical Funds Management (Cash Portfolio)	111,974,842	-
Investments with U Ethical Funds Management (Growth Portfolio)	87,207,015	-

Terms and conditions

All transactions were made on normal commercial terms and conditions and at market rates.

Note 21. Commitments

	Consolidated	
	1 July 2019 to 30 June 2020	15 August 2018 to 30 June 2019
	\$	\$
Capital expenditure commitments at the reporting date:		
Within one year	<u>9,360,000</u>	<u>-</u>

	Consolidated	
	1 July 2019 to 30 June 2020	15 August 2018 to 30 June 2019
Lease commitments at the reporting date for leases which have yet to commence:		
Within one year	694,777	-
One to five years	3,012,367	-
Greater than five years	<u>6,209,608</u>	<u>-</u>
	<u>9,916,752</u>	<u>-</u>

The above lease commitments represent the future cash outflows for the Group's lease of Wesley Place.

Note 22. Interests in subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiary of the Company in accordance with the accounting policy described in Note 2:

Name	Principal place of business / Country of incorporation	Ownership interest	
		2020	2019
		%	%
Guardian Network Pty Ltd	Australia	100.00%	-

The Company obtained control of Guardian Network Pty Ltd from 1 July 2019.

Note 23. Events after the reporting period

During the financial year the COVID-19 pandemic has had a significant impact upon the operations of the Company. Subsequent to balance date, a second wave of the COVID-19 pandemic has occurred within Victoria and other smaller isolated outbreaks in other parts of Australia. While the costs currently incurred by the Company in relation to COVID-19 are significant, the longer term impacts on the operations of the Company remain uncertain and cannot be quantified at this time.

No other matter or circumstance has arisen since 30 June 2020 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Uniting AgeWell Limited
Directors' declaration
30 June 2020

The directors of the Company declare that the consolidated financial statements, comprising the consolidated statement of profit or loss and other comprehensive income, consolidated statement of financial position, consolidated statement of cash flows, consolidated statement of changes in equity, and accompanying notes, are in accordance with the Australian Charities and Not-for-Profits Commission Act 2012 and:

- Comply with Accounting Standards - Reduced Disclosure Requirements and the Australian Charities and Not-for-Profits Commission Regulation 2013; and
- Give a true and fair view of the Group's financial position as at 30 June 2020 and of its performance for the year ended on that date.

In the directors' opinion there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors.

On behalf of the directors

Ms Raelene Thompson
Chairperson

Mr Ian Sanders
Board Director

29 September 2020

Independent Auditor's Report

To the Members of the Uniting AgeWell Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of Uniting AgeWell Limited (the 'Company') and its subsidiaries (collectively the 'Group'), which comprises the consolidated statement of financial position as at 30 June 2020, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and the Directors declaration.

In our opinion, the financial report of Uniting AgeWell Limited has been prepared in accordance with Division 60 of the *Australian Charities and Not-for-profits Commission Act 2012*, including:

- a giving a true and fair view of the Group's financial position as at 30 June 2020 and of its financial performance for the year then ended; and
- b complying with Australian Accounting Standards – Reduced Disclosure Requirements and Division 60 of the *Australian Charities and Not-for-profits Commission Regulation 2013*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter – COVID-19

We draw attention to Note 23 of the financial report, which describes the circumstances relating to the subsequent event regarding COVID-19 and the uncertainty surrounding any potential financial impact on the financials. Our opinion is not modified in respect of this matter.

Information Other than the Financial Report and Auditor's Report

The Directors of the Company are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2020, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors of the Company for the financial report

The Directors of the Company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and the ACNC Act, and for such internal control as the Directors of the Company determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Directors of the Company are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar3.pdf. This description forms part of our auditor's report.
